Security cylinder

## CES 910 WR

### All-round security with VdS certification

Uncompromising security

Your technical adviser on security matters:

## Reliable protection for home and flat

For home owners and tenants who want to play it safe and sleep peacefully at night, the CES security cylinder 910 WR is just the right choice. Perfect workmanship, high locking precision and several layers of protective features against manipulation of the cylinder make a strong case.

A typical burglary attempt takes between two and five minutes. If it is not successful within that time, the risk of discovery becomes too big. Quite often the burglar then abandons his attempt. With as much as 17 locking elements on each side, the CES security cylinder 910 WR gives burglars a really hard time.

VdS

## Optimum locking security

Excellent materials and high-precision manufacturing methods ensure optimum locking function.

Hard-metal inserts on the security-relevant sides of the cylinders provide reliable protection against break-open attempts.

Each cylinder is unique and has its individual registration number. Replacement or additional keys are only available from authorized dealers against presentation of the security card supplied.

The CES security cylinder can be operated from both sides. This makes it possible to lock and unlock the cylinder from the outside even when a key is inserted on the inside.
